The Church

Many people, after looking at the conflicting teaching existing today in the context of the church have understandably, but erroneously, concluded that the church is no longer relevant or necessary. Knowing little of what the Bible says on the subject, they decide that they really don't need to be a part of any church. "I can accept Jesus, but I don't want to be a church member," is an often repeated statement. While it is certainly true that the situation can be confusing, God's Word will do much to clear away the misunderstanding. This lesson will help you see some of God's plan for Christian people regarding His church.
